We accept extended abstracts, short or full papers as a contribution. The participant may give a talk regarding his work, present a tutorial or even organize a session or panel discussion during an Agent Day. We will strive to provide the participants with the possibilities to publish post-proceeding papers in different special editions of renown journals.

All full papers submitted to the workshop (presenting original, unpublished results, consisting of at least 10 pages of A4, 10pt - or equal) will undergo two independent reviews and will be considered for the publication in the [Journal of Computer Science](#) issued at AGH University of Science and Technology in Kraków, Poland.

See the [webpage of the journal](#) for details.
